WHAT IS
he is A
MISTER
demon
WONDERFUL

An ageless demon driven by an insatiable hatred of humans

It hunts the weak and vulnerable. For millennia It has stalked the shadows and has taken many forms. Slipping into our safest places and tearing apart body and soul. Mister Wonderful isn't Its name - no - the demon has no name. Only fury and razor-toothed hunger.

Since the first carvings on ancient Mesopotamian clay tablets hinted at Its existence, it has never harvested human prey with such ease. But in the modern world, our most vulnerable are susceptible to Its deception like never before. Cunning and vile, It has infiltrated our most intimate moments, or most quiet places. It now hunts in the open, in the guise of a simple phone game.

But a demon, no matter how ancient, no matter how powerful, must still be invited to our world. A portal must be opened and a conjuring occur. A vulnerable child, thrilling at the scares of a phone game, is easily lured to extend the invite and allow It to cross over from the dark realm to our world. With the finger-tipped trace of a few ancient rune symbols on a phone screen, the demon's hideous spirit is invoked.

Mister Wonderful is the game and It likes to play.

And It always wins.
